

LONG TIME PROVEN QUALITY IN A NEW BRAND

ALL NEW PRODUCT NAMES
AT A GLANCE

Dear customers and partners of Sherwin-Williams Protective & Marine, with this flyer, we would like to introduce the renaming of our product ranges in a clear, straightforward point of reference. This process is necessary after our Industrial Coatings business unit is transferred from Sika to Sherwin-Williams as of 1st July 2023.

- The change of existing product names to Sherwin-Williams product names does not impact the formulation of our coating materials.
- The products will therefore continue to be produced with the same raw materials, according to the same recipes, using the same expected quality manufacturing process, and have the same technical data as always.

We have decided to change only the brand name to rename our products according to the defined guidelines of Sherwin-Williams Protective & Marine.

The subsequent characterization or numerical labelling of the respective product remains mostly the same.

Examples*:

SikaCor® EG-5

→ **Acrolon® EG-5**

Sika® Unitherm® Platinum

→ **FIRETEX® Platinum**

Sika® Permacor®-3326 EG H

→ **Dura-Plate® 3326 EG-H**

The new product names will appear on all product-related documents and other media after implementing the re-branding process. This includes product data sheets, safety data sheets, declarations of performance, brochures, websites, packaging labels, quotations, order confirmations and invoices, and existing external approvals. Packaging will continue to be supplied in a yellow design for an extended period before we switch to blue Sherwin-Williams packaging.

* Brand name will be changed.
Maintains unique and established characteristic.

ALL BRANDS AT A GLANCE

Old brand	New brand	Description
Sika® Unitherm® and Sika® Pyroplast®	FIRETEX®	Leading global fire protection range
	Unitherm®	Fire protection range
