

REPAIR COATING FOR CORROSION PROTECTION

Now available with MORE:
380g per cartridge

REPACOR™ SW-1000 – EASY TO HANDLE REPAIR COATING

Thanks to its practical mixer cartridge, this solvent-free, innovative 2-pack coating for maintenance or repair of mechanically damaged coating areas meets all requirements for a fast repair. Originally developed as a repair coating for rough offshore conditions and successfully tested in practice for many years, the product is also very suitable for use on other industries, like steel bridges or hydraulic steel construction. Whenever a fast, but high quality and durable repair coating is needed.

2-PACK REPAIR COATING WITH ULTRAFAST CURING

Repacor™ SW-1000 fulfills all the requirements for touching up or repairing (mechanically) damaged coating surfaces in just one operation. This outstanding repair product is solvent free, UV resistant and can be handled as a single coat filler.

Benefits:

- Easy-to-use packaging for difficult repair jobs
- Single layer coating
- Diffusion resistant
- Surface tolerant – can also be used on unfamiliar coatings
- Glass flakes increase coating strength
- Impact and abrasion resistant
- Colour stable like 2-pack PUR top coats
- Solventfree, 100% solids, CMR-free
